Abeceda melodií mladého harmonikáře přináší sbírku oblíbených melodií, které jsou velmi často hrány v rozhlase nebo na koncertech, v divadle a proslavily své skladatele v celém světě. Skladby jsou vydány ve snadných úpravách a označeny prstoklady podle nových pedagogických zásad. Abeceda melodií vychází ve třech svazcích, z čehož dva obsahují proslulé melodie světových mistrů a třetí úpravy významných děl českých skladatelů. Všechna alba jsou míněna jako vhodný doplněk přednesové harmonikové literatury.

Die „Melodien des jungen Akkordeonspielers" bringen eine Auswahl beliebter Melodien, die im Rundfunk, Theater, auf Konzerten oft aufgeführt wurden und die ihre Komponisten zu Weltberühmtheit verholfen haben. Die Kompositionen sind in leichter Bearbeitung herausgegeben und mit Fingersätzen nach den neuen pädagogischen Grundsätzen versehen. Die „Melodien des jungen Akkordeonspielers" erscheinen in drei Bänden, von denen zwei Bände Melodien weltberühmter Meister und der dritte Band Bearbeitungen bedeutender Werke tschechischer Komponisten enthalten. Diese drei Alben mögen als geeignete Ergänzung der Akkordeon-Vortragsliteratur angesehen werden.

The collection "A B C D–Young accordionist's first melodies" contains popular melodies which are frequently heard on the wireless, in concert halls or in theatre and which have made their composers famous throughout the world. The compositions are published in easy transcriptions and equipped with the fingering in accordance with the latest paedagogical methods. They appear in three volumes, the first two containing pieces by world composers, the third being dedicated to works by composers of Czech origin. The publishers hope the albums will serve as an enrichment of young accordionists' repertoire.

Азбука мелодий молодого аккордеониста содержит собрание популярных мелодий, которые часто передаются по радио, исполняются на концертах, эстрадах и которые создали известность своим авторам во всем мире. Произведения издаются в легкой обработке с аппликатурой согласно новым педагогическим принципам. Азбука мелодий издается в трех томах, два из которых содержают известные мелодии мировых мастеров а третий том обработки известных произведений чешских композиторов. Все альбомы предусматриваются для использования в качестве инструктивной литературы.
